

KinderTrack – Edit Site Settings

A Press **Site Settings** under **Administration**.

B Press **Edit**. 

C Make the necessary changes. Required fields are marked by a **red asterisk (*)**.

Note: It is not recommended that the Boards change these settings by themselves. It is best to seek assistance from the technical KinderSystems support.

A screenshot of the Site Settings form in KinderTrack. The form contains various configuration options, some marked with a red asterisk to indicate they are required. The settings are as follows:
Site Name: Texas
