

KinderConnect – KinderBridge (API) Integration

KinderBridge serves as a secure connection between your **Child Care Management System (CCMS)** and KinderConnect, allowing you to upload attendance data from your CCMS into **KinderConnect**.

Before beginning the integration process, ensure your **KinderConnect account is set up**. Once confirmed, follow the steps below.

- A** Gather the following information:
 - Provider license number
 - Name of the attendance collection software (CCMS) you are using

- B** Have a provider administrator call KinderSystems Support at **888-265-6461**.
Be prepared to provide the information gathered in the previous step.

- C** During the call, the support agent will provide the credentials needed to connect your CCMS to KinderConnect via KinderBridge:
 - Provider ID
 - Group Password
 - Agency ID

- D** After receiving your credentials, you must complete the integration within your CCMS.
Contact your CCMS vendor directly for assistance with entering the credentials.
