KinderConnect - Overnight Care

Overnight Care occurs when a child's attendance spans past midnight. Example: If a child arrives at **10:00 PM on Monday** and leaves at **8:00 AM on Tuesday**.

Before overnight attendance can be recorded, the Overnight Care setting must be enabled for your provider.

A Call KinderSystems Support at **1-888-265-6461** and provide your: **Provider ID** and **Operator name** to enable Overnight Care.

B Once Overnight Care is enabled, sponsors will enter attendance as usual using:
* KinderSign
* KinderSmart
* IVR

On the day/time the child arrives, the sponsor checks the child **IN**. This appears as the **In time** on that date. In this example, the child arrived at 10 PM on Monday.

On the day/time the child leaves, the sponsor checks the child **OUT**. This shows as the **Out time** on that date. In this example, the child left at 8 AM on Tuesday.

C KinderConnect automatically "splits" the time so it records correctly across both dates. The system will:
* Add an **Out time of 11:59 PM** on the first day
* Add an **In time of 12:00 AM** on the next day

The system keeps the sponsor's actual times:
* The original In time stays on Day 1 (Monday 10 PM)
* The actual Out time stays on Day 2 (Tuesday 8 AM)
